Forecast for Tuesday 29 Nov 2022

Weather: Mainly dry with clear periods overnight and some low level fog patches, but a few showers over Skye and some far northwestern coastal ranges. The odd isolated shower may continue there during the day but otherwise daylight hours will be dry with some good sunny periods, with just some high cloud around in the afternoon. The odd shallow fog patch may linger in one or two glens.

Chance of cloud-free hill tops above 800m: 90%.

Low cloud and visibility: Patchy cloud at 750m over Skye and far northwestern coasts near any showers. Visibility generally good, but poor or very poor within the cloud and in fog patches.

Met Office Aberdeen Meteorologist's View
Nothing additional.

Forecast for Wednesday 30 Nov 2022
Weather: A mainly dry day with some sunny spells, and the odd shallow glen fog bank. Thicker cloud may bring some hill fog and perhaps a little rain to Skye and Lochalsh, though this is more likely in the evening.

Maximum wind: Southerly 25 gusts 35mph easing 15-20mph.

Chance of cloud-free hill tops above 800m: 90% falling 30% in the west later

Low cloud and visibility: Little low cloud, just the odd patch in the glens where fog lifts, but some cloud at 750m reaching west coast hills later and some lower patches in the evening. Poor visibility in the cloud, good otherwise becoming moderate later in any rain.

Temperature: **Glens:** Minus 3 in clearer areas at dawn rising to Plus 4 at best.
At 800m: Plus 4 Celsius
Freezing level: 1100m.
